

# IO 7: Tools, Instruments and Guidelines for the Identification of Individual Competence Profiles

Lead partner: TU Dresden, Germany

March 2018 www.project-hceu.eu

# The HCEU project

More than any other sector the healthcare sector is already today dependent on the mobility of workers from across Europe and even on an international scale in order to overcome skill shortages that are strongly influencing this sector in EU Member States. So far the mobility of skilled workers is strongly hindered by highly complex and time consuming validation and recognition processes and by missing transparency among healthcare qualifications in the European Member States. HCEU makes a major contribution towards transparency of healthcare qualifications across borders and facilitates processes to formally recognise and validate healthcare qualifications acquired abroad as well as through in- and non-formal learning within different healthcare recognition and validation systems in the European Union.

For this purpose the HCEU consortium makes use of the highly awarded and already in many cases practically applied VQTS model. The VQTS model does not focus on the specificities of national VET systems but uses learning outcomes and work processes to enhance transparency. It provides a 'common language' to describe competences and their acquisition and a way to relate these competence descriptions to concrete qualifications/ certificates and competence profiles of individuals. The VQTS model relates on the one hand to the work process and follows on the other hand a 'development logical' differentiation of a competence profile. This makes it an ideal and comprehensive tool to appreciate the lifelong learning of healthcare professionals in the context of formal recognition processes.

Based on this approach HCEU develops VQTS matrices, profiles, tools and instruments for the healthcare profiles 'nurse' and 'carer for the elderly' for the national contexts of the project partners and in order to facilitate recognition praxis in between those European Member States. In addition HCEU develops transfer kits in order to facilitate the transfer of those tools also to other national (within and beyond Europe) contexts and to other fields within healthcare. Those tools are expected to make a major contribution to the work of VET providers and recognition bodies/authorities involved in transnational mobility of healthcare professionals. In this way HCEU facilitates the establishment of a European labour market that helps to overcome skill shortages and high unemployment rates through fostering mobility of healthcare professionals across the European Member States.

# Step 1

**Initial Interview and Planning** 

# This step includes the following tools and templates:

- Candidate Information Form
- RPL Assessment Plan Template
- Workplace Representative Form
- Third Party Report
- Candidate Self Evaluation Tool

# **Template for the Candidate Information Form**

The following template is the Candidate Information Form to capture initial information about prospective RPL candidates. In completing the form, the candidate provides some initial information and may attach documents such as a resume or references.

The blank form would typically be provided to a person registering their interest in RPL, and could be provided by an RB contact person such as an RPL Coordinator. When providing the form, that person should also give the candidate brief and accurate information about the likely RPL processes.

At the first enquiry or after being accepted for RPL the candidate should also be provided with the Candidate Guide from this RPL Toolkit. That document advises them on the RPL assessment processes involved.

If the prospective RPL candidate completes this form before commencing the RPL assessment process, the RB have some initial information to consider in deciding their RPL eligibility and participation.

Once the candidate is enrolled with the RB, the assessor can also consider the information and any initial evidence provided by the candidate when conducting the initial interview and planning additional sessions (Step 1 of the RPL assessment process recommended in this RPL Toolkit).

# Template for the RPL Assessment Plan

The following template provides the RPL Assessment Plan for the assessor to complete with the candidate during Step 1 of the RPL assessment process (the initial interview and planning session). The Plan should be thought of as a 'living document', to be updated throughout the RPL assessment process.

The RPL Assessment Plan is used to document the requirements and steps in the RPL assessment process for the candidate, such as electives chosen, dates of workplace visits, clusters to be considered, and expectations of the candidate and workplace.

To develop the Plan, the assessor should consider information in the Candidate Information Form as well as information gained in discussions with the candidate at the initial interview and planning session (Step 1). Then, in consultation with the candidate, the assessor should develop the first cut of the Plan for that candidate.

The candidate and the assessor should both make copies and bring them to every RPL assessment activity for updating as the assessment process progresses (for example, by adding information about the Competence conversation sessions, or identified workplace assessment tasks as required).

# Instructions and notes This form is for initial completion by the assessor with the candidate in Step 1, at the initial RPL interview and planning session—it sets out the steps in the RPL process for an individual candidate based on their needs and circumstances. To complete the form, first complete Parts 1 to 6, then, as the RPL assessment process continues, progressively update dates and activities using Part 7. Both the assessor and candidate should keep a copy and bring their copy to each RPL assessment activity for updating if needed. Candidate's personal details

**Employer**

### PART 1: COMPETENCE AREAS FOR RPL

Family name

COMPETENCE AREAS	Is RPL sought for this area?	
Area 1 – Assessment, diagnosis, planning professional care		
1.1.a to 1.1.c – Gathering data (sub-area)	Yes	No No
1.2.a to 1.2.c – Nursing diagnosis (sub-area)	Yes	No
1.3.a to 1.3.c – Planning professional care (sub-area)	Yes	No
Area 2 – Nursing Care		
2.1.a to 2.1.c – Basic care and personal hygiene (sub-area)	Yes	No
2.2.a to 2.2.d – Nutrition (sub-area)	Yes	No
2.3.a to 2.3.c – Mobility, movement, positioning (sub-area)	Yes	No
2.4.a to 2.4.d – Excretion (sub-area)	Yes	No
Area 3 – Nursing intervention		
3.1.a to 3.1.c – Participating in medical and diagnostic procedures (sub-area)	Yes	No
3.2.a to 3.2.c – Preparing and administering medication (sub-area)	Yes	No

COMPETENCE AREAS	Is RPL s this area?	ought for
3.3.a to 3.3.c – Wound management (sub-area)	Yes	No
3.4.a to 3.4.c – Stoma management (sub-area)	Yes	No
3.5.a to 3.5.d – Dealing with medical devices (sub-area)	Yes	No
3.6.a to 3.6.d – Basic and advanced life support (sub-area)	Yes	No
Area 4 – Creating & maintaining a healthy and safe environment		
4.1.a to 4.1.c – Hygiene (sub-area)	Yes	No
4.2.a to 4.2.b – Sterilisation (sub-area)	Yes	No
4.3.a to 4.3.c – Occupational health and safety (sub-area)	Yes	No
4.4.a to 4.4.c – Handling on-site disasters (sub-area)	Yes	No
Area 5 – Communication & collaboration with other professionals		
5.1.a to 5.1.c – Train and manage other professional caregivers in work activities (sub-area)	Yes	No
5.2.a to 5.2.c – Professional communication (sub-area)	Yes	No
5.3.a to 5.3.d – Integrated care (sub-area)	Yes	No
Area 6 – Communication & collaboration with patients/clients		
6.1.a to 6.1.b – Communication with patients, clients and relevant others (subarea)	Yes	No
6.2.a to 6.2.d – Education & empowerment of patients, clients and relevant others (sub-area)	Yes	No
6.3.a to 6.3.c – Health promotion & prevention (sub-area)	Yes	No
6.4.a to 6.4.b – Fostering social life & a stimulating environment (sub-area)	Yes	No
6.5.a to 6.5.b – Organising daily life & daily life activities (sub-area)		

COMPETENCE AREAS	Is RPL sought for this area?	
	Yes	No
Area 7 – Management		
Transversal Competence Areas	Is RPL s this area?	ought for
Area A – Monitoring, documenting, quality assurance		
A.1.a to A.1.c – Monitoring and evaluating of patient's/client's condition (subarea)	Yes	No
A.2.a to A.2.b – Documentation (sub-area)	Yes	No
A.3.a to A.3.d – Promoting quality assurance measures (sub-area)	Yes	No
Area B – Ethical, intercultural, legal competence		
B.1.a to B.1.b – Ethical competence (sub-area)	Yes	No
B.2.a to B.2.d – Intercultural competence (sub-area)	Yes	No
B.3.a to B.3.b – Legal framework (sub-area)	Yes	No
Area C – Continuous professional development		
C.1.a to C1.d – Identifying and addressing professional training needs (subarea)	Yes	No
C.2.a to C.2.c – Development of the profession (sub-area)	Yes	No
C.3.a to C.3.c – Professional care research (sub-area)	Yes	No
Areas(s) not provided for in the RPL Toolkit but required for the (national) qualif	ication	
	Yes	No
	Yes	No
	Yes	No

# PART 2: AGREED DATES FOR CANDIDATE TO COMPLETE THEIR SELF-EVALUATION

Candidate self-evaluation and workplace verification	Agreed date for completion	Done?
<b>Candidate Self-evaluation Tools</b> (The candidate should complete the <i>Candidate Self-evaluation Tools</i> , seek workplace verification, and return the completed tools to the assessor before or on the agreed date.)		
<b>Workplace Representative Form</b> (The workplace representative should complete a <i>Workplace Representative Form</i> , when verifying the candidate's self-evaluation. The candidate should return it and the assessor should retain it.) This should be returned with the Self-evaluation tools.		

# PART 3: AGREED DATES AND COVERAGE OF COMPETENCE CONVERSATIONS

<b>Competence conversation interviews</b> (Assessors should add details of the area or sub-area to be addressed in each 'Competence conversation' interview session in the table below. This section will usually be completed after the initial interview and assessor consideration of the candidate's self-evaluation.)	Agreed date	Venue	Done?

<b>Competence conversation interviews</b> (Assessors should add details of the area or sub-area to be addressed in each 'Competence conversation' interview session in the table below. This section will usually be completed after the initial interview and assessor consideration of the candidate's self-evaluation.)	Agreed date	Venue	Done?

# PART 4: AGREED DATES AND DETAILS OF WORKPLACE ASSESSMENT TASKS

<b>Workplace assessment tasks</b> (Assessors should add the number and brief title of the required workplace assessment tasks below, noting that this section will usually be completed <i>after</i> the Competence conversation interview/s.)	Agreed date	Venue	Done?

# **PART 5: THIRD PARTY REPORTING REQUIREMENTS**

<b>Third Party Report</b> (Assessor to add brief summary of any required report/s below, noting that this section will usually be completed <i>after other RPL evidence gathering and assessment processes</i> if further workplace verification is required.)	Agreed date	Done?

# PART 6: CANDIDATE AND ASSESSOR SIGN OFF (ON PLAN AS FIRST DEVELOPED)

Signatures					
Assessor's name		Assessor signature		Date	
Candidate's signature				Date	
(If required, update the above information in the following section of the table, or attach additional sheets, as changes to the above are made.)  Any updates?				☐ Yes	□ No

# PART 7: ANY ADDITIONAL UPDATES OR CHANGES DURING THE RPL PROCESS

RPL Assessment Plan: Updated Information	Date and assessor and candidate initials

**Finalisation of RPL process:** Once all the above-listed processes are completed and recorded, the assessor should provide the candidate with feedback, record the outcomes on the *RPL Toolkit's RPL Assessment Outcomes Form*, and follow the RB's procedures to finalise the RPL process.

# Template for the Workplace Representative Form

All workplace representatives who verify candidate performance should complete the following form. The assessor should provide it to the workplace representative when verification of candidate skills and knowledge is sought—perhaps by giving it to the candidate with the *Candidate Self-evaluation Tools* so they can in turn give it to the workplace representative, or by giving it directly to the workplace if a *Third Party Report* is requested and negotiated.

The form requires the workplace representative to verify that they understand the process and that any verification and information they provide will be, to the best of their ability, true and correct. The form is intended to reinforce the accountability and significance of workplace verifications.

# **Confidential Workplace Representative Form**

**Purpose of this form:** Such workplace representatives will typically be working with the candidate in a position of responsibility, perhaps their employer or supervisor, hold higher qualifications than the candidate, and have observed their workplace performance. To ensure all candidates gain recognition for skills and knowledge they genuinely hold, workplace representatives must carefully consider their verification of the candidate and provide accurate statements.

I have com	I have completed and provided a Workplace Representative Form						☐ No
Workplace signature	representative's				Date		

# **Candidate Self-Evaluation Tools**

The following tools are for the candidate's self-evaluation. The candidate is required to consider the workplace tasks they can do, and complete these tools in their own time.

The candidate should be given the tools during Step 1 of the RPL assessment process—the initial interview and planning session.

At that session, the assessor should advise the candidate how to complete the self-evaluation, including the need for workplace verification of skills. More detailed instructions for assessors are on the following page.

These tools allow candidates to document and broadly evaluate their knowledge and skills against workplace tasks they believe they can do and to collate some initial evidence.

They also require workplace representatives to verify the candidate's skills and knowledge. The tools include instructions for candidates and workplaces, self-evaluation tools for each competence area and a form for listing any attached evidence.

**Note:** If applicants require additional support to complete the tools, this should be provided.

# Candidate Self-evaluation Tool: Instructions for the assessor

# Assessors should read the following notes before providing candidates with the self-evaluation tool

### What is this tool?

This tool includes a self-evaluation form related to a specific competence area and a form to list attached documents—to be completed independently by the candidate and verified by the workplace. When completed, this tool provides evidence of workplace tasks the candidate believes they can do and examples of how they apply skills and knowledge, with this information supplemented and verified by the workplace.

**Note:** This will not be sufficient to determine competence. However, the self-evaluation will provide evidence and information that can be used in determining the next steps in the RPL assessment process.

### Instructions for assessors providing the tools

Provide the candidate with the tool (the following pages—from the 'Instructions to the Candidate' to the end of the 'List of attached documents' section) during Step 1 of the RPL assessment process (at the initial interview and planning session).

If applicable, before providing the tools, remove any sections for any area in which the candidate has been assessed as competent (for example, by credit transfer or official recognition).

When providing the *Candidate Self-evaluation Tools*:

 advise the candidate that the completed tools will be part of the evidence to be considered in determining their competence

- go through the tools, showing the candidate how to complete them
- determine any support that could be needed by the candidate, such as language, literacy or numeracy support or skills in using a computer if needed, and advise how this can be sourced
- inform the candidate that the RPL process is not based on documentary evidence only—that is, while documents can be attached, the candidate does not need to provide documents as evidence of every skill they claim they hold, as other assessment processes will also be used
- inform the candidate that they will need to seek verification of their completed self-evaluation from a workplace representative (that is, a person in a position of responsibility, perhaps their employer or supervisor, who holds higher qualifications than they do and has observed their workplace performance)
- give the candidate the Workplace Representative Form that also must be completed by the workplace representative.

# Instructions for assessors in reviewing the completed tools

After the completed tools are returned, assessors should check them for completion and sign-off, review the information and any evidence provided, and add comments to the tools in the section provided at the end of each.

The information gathered from the candidate selfevaluation should guide the assessor in determining the focus of the 'Competence conversations' and workplace assessment tasks to be undertaken.

# Candidate Self-evaluation Tool: Instructions for the RPL candidate and workplace representative

# RPL candidates and workplace personnel—please read the following notes before completing the tables

### What is in this document?

This document will help you to evaluate the knowledge and skills you apply at work—the first step in your RPL process.

The following pages include the competence areas, and there is also a table for listing any attached documents.

### How to conduct the self-evaluation

- Completing this self-evaluation will take some time—please allow enough time to think very carefully about the workplace tasks you can do.
- The tool includes different tasks. Think about each task. Consider if you do it 'very well', 'quite well' or 'no, or not well', and tick the box. Then, add examples of how you do the task in the space provided.
- After you have completed the tables, ask a
  workplace representative to complete and sign
  the workplace sections. This should be someone
  who knows your work, perhaps your employer or
  supervisor. They will also need to complete a
  Workplace Representative Form.

The completed tables give the assessor important evidence of tasks you believe you can do, to help them to decide the next RPL steps.

### You can attach documents

You might have documents at work or at home that show you can do some of the workplace tasks. If so, attach them to the back of the completed tables, and add details to the 'List of Attached Documents' table.

In thinking about documents to attach, remember:

- you don't have to find documents for every workplace task—only where you can easily find these, and in line with your assessor's suggestions
- any document can be listed against more than one workplace task
- the table has a space to put the document number—make sure the same number is on the attached document
- to maintain confidentiality, remove all personal information from any workplace documents you use.

### Instructions for workplace representatives

The Workplace Guide explains the RPL assessment process. If you do not have this, please ask the assessor or the candidate.

As a workplace representative, you are required to verify the candidate's self-evaluation. To do this you need to be someone in a position of responsibility who knows the candidate's performance and holds higher qualifications than they do, perhaps an employer or supervisor. Confirm the self-evaluation (where they have observed it) and provide comments and examples—you will also need to complete a Workplace Representative Form.

# After candidates have completed the self-evaluation

Copy the completed tables and *Workplace Representative Form* for your records, and give a copy to the assessor on the date agreed in the *RPL Assessment Plan*.

Assessors must consider the evidence provided. This first step in the RPL assessment process will contribute to evidence of the candidate's Competence, but will not yield evidence that meets the rules of evidence (i.e. valid, sufficient, current and authentic evidence) against the areas of Competence assessment requirements. Assessors should advise the candidate of the areas and sub-areas to be considered in the Competence conversation interview or other assessments.

#### **Candidate Self-evaluation: Instructions for attaching documents**

#### Candidates should read the following instructions

You may decide to attach documents that show you can do any of the workplace tasks you have self-evaluated.

Documents you might attach include any of the following:

- Photos relevant to work activities
- Reflective journals, diaries, workplace task or job sheets, logbooks
- Professional care workplace documents (with permission and all names deleted)
- References or letters from past employers, supervisors (with permission and all names deleted)
- Workplace documents you have contributed to or written
- Brief Resume or CV, position descriptions
- Workplace training or professional development records
- Membership of professional associations, networks or clubs
- Records of special skills and activities outside work
- Workplace or other awards.

However, don't be put off if you don't have these documents. Your assessor will help you to identify any other documentary evidence during the next steps of your RPL assessment process.

Please list any documents you attach to your *Candidate Self-evaluation Tools* on the following table.

#### Remember that:

- you don't have to find documents for every workplace task—only where you can easily find these, as suggested by your assessor
- 'documents' can include anything that supports your claim for RPL—such as paper documents, photos, videos, electronic files
- one document can be evidence for more than one workplace task
- make sure each document you added a number for in the Self-evaluation Tool is also listed in the following table, and attached
- you can add extra pages to the document list if you need to
- remove all confidential or sensitive information from any workplace documents you attach, to ensure privacy and confidentiality
- if you think it will help the assessor to know the document is your work, you might get your workplace supervisor or other suitable person to write this on the document and sign it.

Please sign the declaration at the end of this form to verify that the information you have provided is true and correct.

Remember to make (and keep) a copy of your selfevaluation tools and all documents before giving them to the assessor.

# Step 2

## **Competence Conversation**

This step includes the following tools and templates:

- Competence Conversation Recording Tool Instructions for assessors
- Competence Conversation Recording Tool

### **Competence Conversation Recording Tools**

The following tools are for the assessor to use during Step 2 of the RPL assessment process—the 'Competence conversation' interviews.

The assessor should prepare the tools in advance for use in Step 2 by:

- deleting any sections that will not be assessed in that session (it is unrealistic to cover all the competence areas in the *RPL Toolkit* in one session, so more than one session will be required)
- saving the files to a laptop, or printing hard copies, depending on method used to record candidate responses.

The Competence Conversation Recording Tools provide:

- a bank of questions and prompts for the assessor to use during the conversations
- an assessment tool in which the assessor can record evidence of the competence conversation
- key points the assessor should look for in candidate responses and particular notes including assessment requirements and criteria for assessment, with the capacity to record candidate responses.

Instructions for the assessor are on the following page.

**Note:** The recording tools are not provided to the candidate for use during the Competence conversation interview.

#### **Competence Conversation Recording Tools: Instructions for the assessor**

#### Assessors should read the following instructions and notes

The Competence Conversation Recording Tools are assessment instruments used by the assessor to record 'Competence conversations' interviews. Do not provide these assessment tools to the candidate in the interview.

The Competence conversation provides an opportunity for the candidate to confirm their knowledge as identified in the *Candidate Self-evaluation Tools*, and for you to assess aspects of relevant competence areas.

## How to complete the Competence Conversation Recording Tools

The HCEU website provides detailed examples for assessors on how to conduct the Competence conversation. If you are not familiar with the process, go to these documents and read, and then follow, the instructions.

The following points summarise those steps and instructions.

- Prepare for the conversation for example, by determining and collating the required assessment tools—that is, the recording tools only for the competence areas you will assess at that session. Because you will only be able to assess a reasonable amount of competence areas per session, you might choose to include one or two sub-areas per session. Advise the candidate and organise the venue.
- Contextualise or change questions if required the questions are discussion starters, and are not necessarily 'fixed'. You may alter the wording and can ask follow-up questions in a conversational style.

- Support the candidate: Ensure the candidate is as comfortable as possible. Take breaks if needed. Don't try to cram too many sub-areas into one session. Staggered sessions will be more useful.
- Workplace venues are suitable: For most candidates the workplace provides a familiar setting where they may be more comfortable discussing their roles and capacities, and where additional natural evidence of workplace Competence may be gathered (for example by observing the candidate in the workplace, or seeking documents).
- PRecord candidate responses: Listen for the 'key points to be addressed' in the candidate's response, and record notes on these as the conversation proceeds using the 'Assessor notes' section, checking also for additional requirements that might be in those sections. You could highlight points you wish to come back to, and you might need some time after the interview to finalise the recording tool.
- Summarise findings: Use the 'Outcomes' section at the end of each cluster to provide further details on the candidate, including examples that may be relevant in confirming competence. Add pages if needed.

Record findings below.						
tasks to be assesse Toolkit) or candida	If the evidence shows the candidate has <b>not demonstrated competence</b> , discuss the next steps—practical workplace tasks to be assessed by the assessor in the workplace (see the Workplace Assessment Tasks provided for in this RPL Toolkit) or candidate self-directed professional development activities to build knowledge or skills. If the candidate <b>has demonstrated</b> workplace competence for an area, complete the <i>RPL Assessment Outcomes Form</i> .						
Assessor's name		The candidate has not yet demonstrated competence, more evidence of knowledge and/or skills is required					
Assessor's signature		The candidate has demonstrated competence to the standard expected in the workplace (and the rules of evidence are met)					

# Step 3

# **Workplace Assessment**

This step includes the following tools and templates:

- Instructions for candidates
- Observation tool

# Workplace assessment tasks: Instructions for candidates

The assessor should advise the candidate the workplace assessment tasks that are required, agree a date and workplace location, and provide the correct set of instructions before the workplace assessment task is undertaken.

The following pages include sets of instructions for 14 workplace assessment tasks and a blank template for assessors to add to if they wish to design another assessment task (for example, for a more holistic workplace demonstration by the candidate).

The instructions provide details of the workplace task assessment requirements and criteria for assessment, thus assisting candidates to prepare for the demonstration and assessment.

The instructions may also assist the workplace to understand what the task demonstration involves, assisting them to prepare for the activity if required.

### **Template for RPL Assessment Outcomes Form**

The RPL Assessment Outcomes Form provides the capacity to record the RPL assessment methods for each area and the outcomes of the RPL assessment process for all competence areas that make up the qualification.

The assessor should progressively add information on the RPL assessment methods undertaken with the candidate.

After the RPL assessment process for all areas is concluded, the form should be finalised by the assessor and signed by both the assessor and candidate.

#### **RPL Assessment Outcomes**

#### **Instructions and notes**

**Personal details** 

**Family** 

name

This form is for completion by the assessor—it provides a cover sheet in which details of the final assessment outcome for a candidate and the basis for that decision can be recorded. Assessors should progressively add information, as RPL assessment activities are undertaken. Depending on the recognition body's regulations and processes, the assessor could add information for areas not assessed by RPL (e.g. credit transfer, national recognition, or training and assessment).

Once final assessment is completed, assessors should finalise the form by ticking 'Competent' or 'Not Yet Competent' for each area, signing the declaration and having the candidate also sign the form. The signed copy would usually then be retained in the candidate's file of RPL assessment evidence.
